FORWARD

September 2005

The release of the **2004 Oregon Nursery and Greenhouse Survey** results represents the fifteenth year of documenting through statistics the progress of Oregon's # 1 agricultural industry. Nursery and greenhouse sales climbed to \$ 844 million in 2004, up 8 percent from the previous year, demonstrating that the industry continues to do an outstanding job of growing and marketing high quality nursery stock and materials. This growth continues despite the challenges of truck shortages, rising fuel, transportation, and labor costs, sometimes burdensome regulations, and competition for land. The industry is a key generator of revenue for the State, with in excess of 75 percent of sales coming from outside Oregon.

Oregon's top five producing counties Clackamas, Washington, Marion, Yamhill, and Multnomah are in or near the Portland metropolitan area. The nurseries and greenhouses in these five counties represent 86 percent of the total value of production, providing local employment and beautifying the urbanized landscape.

Container sales continue to dominate the product categories, accounting for 41 percent of the sales for all product types; this share is up 3 percent from 2003. Growth in sales of container plants accounted for 72 percent of the \$65 million increase realized by the industry in 2004.

We would like to thank the many Oregon nurseries and greenhouses, the Oregon Association of Nurseries, the Oregon Department of Agriculture, our crew of field interviewers, and others who provide information and support for this important annual effort. Access to accurate and timely information is critical to the continued success of this vital sector of Oregon agriculture.

Sincerely,

Janice A. Goodwin
Director

2004 Oregon nursery product sales set another record.

Oregon's horticulture industries continued to grow in 2004 with another record high sales value of \$844 million for nursery and greenhouse products. This was the fifteenth year of this survey and the fourteenth year of record sales. Sales in 2004 climbed 8 percent above 2003 and were over 2 times the sales of 1995. The horticulture industry continued to solidify its place above all other Oregon agricultural commodities, claiming nearly 21 percent of the total value of agricultural production. Cattle, with a value of \$503 million, ranked second, while all hay and all milk claimed third and fourth places with sales of \$382 million and \$363 million, respectively.

Seventy-two percent of the total \$65 million sales increase this year was in Container sales, which increased 16 percent over last year, while Bare Root products gained 6 percent. Each category of plant material sales was higher in 2004 than in 2003, except for the other product category which remained the same as the previous year.

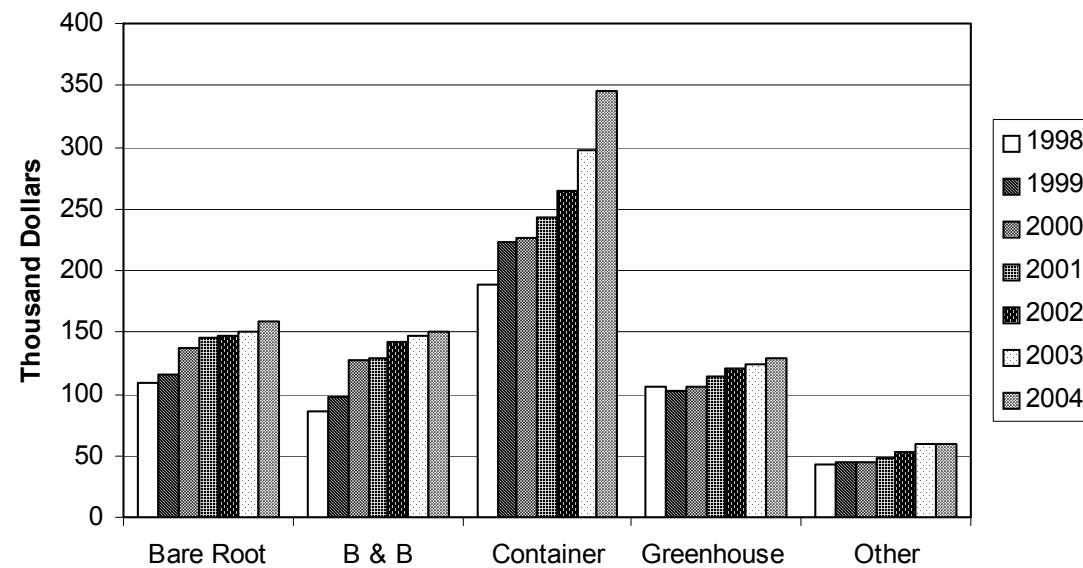

Gross sales, when broken down by sales size groups, showed increases in all but one group. The largest size group, 2+ million, increased 12 percent or \$67.3 million over 2003. This increased value is more than the total increase because the \$500,000 to \$2 million sales size group was down 3 percent to 5.1 million from last year. This size group was down in sales value because many of these firms increased sales and moved into the 2+ million size group.

1/ Not collected in 2004. 2/ Contains counties with less than 1 million dollars of sales and other counties that were combined to avoid disclosure.

Nursery/greenhouse gross sales by county, Oregon - 2004
Oregon \$844 million

* Other Polk \$10.3, Umatilla County \$4.3, Douglas \$3.8, Deschutes \$3.6, Jackson \$3.2, Lincoln \$2.7, Josephine \$2.5, Benton \$1.8, Other Misc. Counties \$23.8

Firms with sales over \$2 million made up 72.4 percent of all Oregon sales, and the total number of firms in this group increased 8 firms to a total of 84 firms.

Oregon's top four counties of production, Clackamas, Washington, Marion, and Yamhill had sales of \$193.5 million, \$191.2 million, \$178.9 million and \$115.9 million, respectively. In total, these four counties accounted for 81 percent of all the sales. When Multnomah county's sales of \$49.0 million is included, the total value of production in the top five counties account for 86 percent of total production. Clackamas county is still the major production area, but Marion county -- which has been the second largest county of production -- was replaced by Washington county this year. Washington county sales were only 2.3 million below Clackamas county and increased \$27.5 million above last year. Given the number of growers and acres in production in Clackamas, Washington, and Marion, counties, any of these three could be the number one producer next year.

Gross sales, by sales value 2000-2004

Sales size group	2000 1,000 dollars	2001 1,000 dollars	2002 1,000 dollars	2003 1,000 dollars	2004 1,000 dollars	<u>2004</u> <u>2003</u> Percent change

Data collection

The 2004 Oregon Nursery and Greenhouse Survey was designed to collect data on all commercial nurseries, greenhouses, and producers of other plant material, such as roses, holly, bulbs, sod, cut flowers, dried flowers, etc. in the State. A stratified random sample of 752 names was selected from the State of Oregon's list of licensed nurseries and greenhouses for 2004. They were classified into six broad size groups based on sales volume. The Oregon Agricultural Statistics Service's floriculture survey was used to supplement the list for those firms who are not required to have a State license.

Questionnaires were mailed to the sampled names on June 13, 2005, followed by a second request on July 7. All non-respondents were phoned or visited from July 27 to August 18. Cooperation was excellent with 92 percent of the sampled names participating in the survey. Data for minor counties and items were combined with other totals to avoid disclosure of individual operations.

The sample design was developed by the National Agricultural Statistics Service. Kent Hoddick of the Oregon Staff has been the survey coordinator of the Oregon Nursery and Greenhouse program since its inception in 1991.

Number of operations and survey sampling 2003 & 2004

Sales size group	Total number of operations		Operations in sample	
	2003	2004	2003	2004
Less than \$20,000	1,182	1,194	112	132
\$20,000 - \$99,999	389	396	137	151
\$100,000 - \$199,999	112	115	90	109

\$500,000 - \$1,999,999	149	144	149	144
More than \$2,000,000	76	84	76	84
Total	2,044	2,073	679	752

Wages and number of workers up ^{1/}

The number of workers employed increased 6 percent from 2001 to a total of 21,600. Each sales size group reflected part of that increase except the "\$200,000-\$499,999" size group, which dropped 400 workers, a decline of 22 percent from the 2001 survey. While the total wages paid rose 18 percent to a total of \$275.2 million, the State average wage paid to workers only rose by 11.8 percent or to \$12,741 dollars. Full time worker numbers continued upward, reaching 10,000 for 2003. Seasonal worker numbers, after two surveys of declining numbers, increased by 7 percent to 11,600 workers for 2003. Both seasonal and full time worker numbers declined for the "\$200,000-\$499,999" sales size group since the 2001 survey.

Number of workers employed in the nursery/greenhouse industry and gross wages paid - 2003

Sales size group	Full time	Seasonal	Total workers	Total wages	Average wages per worker
	Number	Number	Number	Dollars	Dollars
Less than \$20,000	60	800	860	1,210,000	1,407
\$20,000 - \$99,999	200	1,200	1,400	5,390,000	3,850
\$100,000 - \$199,999	240	600	840	5,020,000	5,976
\$200,000 - \$499,999	600	800	1,400	15,500,000	11,071
\$500,000 - \$1,999,999	2,200	3,300	5,500	58,720,000	10,676
More than \$2,000,000	6,700	4,900	11,600	189,360,000	16,324
Total	10,000	11,600	21,600	275,200,000	12,741

1/ Data not collected for 2004; the number of workers and wages are collected every other year.

DESTINATIONS OF OREGON NURSERY PRODUCT SALES SHIFTING

Percentage wise, the following destinations showed the strongest gains from the last destination survey in 1999. Other Western States - up 46 percent (\$19.2 million); Upper Midwest - up 67 percent (\$52.9 million); Gulf States - up 39 percent (\$6.9 million); Northeast States - up 48 percent (\$39.4 million); and Eastern Canada - up 146 percent (\$11.1 million). All other destinations also increased but at lesser percent changes. Of course, Oregon remained the largest destination, increasing by \$30.2 million dollars in sales delivered over 1999. Destination sales as a percent of total Oregon sales produced showed increased sales in Other Western States, Upper Midwest, Gulf States, Northeast States, and Eastern Canada, while all other regions declined in sales value share. Virtually all regions showed strong gains in container sales delivered over 1999. Most regions showed good gains in Balled & Burlapped deliveries except Upper Midwest - no change, Atlantic States - declined, Northeast States - declined, and Eastern Canada - declined. Bare root deliveries made modest gains in all regions except Oregon showed a slight decline. The Upper Midwest increased about 75 percent in deliveries for bare root material. Greenhouse and Other plant materials made good gains overall.

FAX: 326-2549 or 1-800-731-7011

Dear Nursery/Greenhouse Grower:

S
A

Please take a few minutes to complete the annual Nursery and Greenhouse Survey that is the only source of measuring annual growth and change of Oregon's major agricultural industry. The nursery/greenhouse report will be released in August 2005 and is used extensively by your industry, universities, the legislature and local governments for informed decision making concerning issues affecting both the industry. Thank you for your help.

Sincerely,

Janice A. Goodwin
Director

Please make corrections to name, address and zip code if necessary.

M

SECTION 1 - INTRODUCTION

1. Did you produce, sell, or have growing any nursery or greenhouse crops (including container grown), bulbs, sod, bedding plants, cut flowers, holly and dried flowers, etc. during 2004?

YES - Please go to Section 2.

NO - Please go to Section 3 on the back page.

SECTION 2 - GROSS SALES VALUE

2. What were your gross (invoice) sales from your nursery and greenhouse operation for each of the following plant material categories, and in total 2004? If calendar year data are not available, please use the most recent fiscal Year period. (Exclude plant material purchased for immediate resale.)

- a. Bare Root
b. Balled and Burlapped
c. Container
d. Greenhouse
e. Other Nursery Plant Materials (include sod, bulbs, tubers, holly, cut greens, etc.)
f. TOTAL (Should equal a+b+c+d+e)

2004 GROSS SALES (IN DOLLARS)
